

# GLOWING LINES

GLOWING LINES charge during day-time and glow at night to create an iconic highway experience and increase safety. The project is part of the SMART HIGHWAY.

The first GLOWING LINES have been realised after a trial period of 3 months in the Netherlands, and glows up to eight hours at night. GLOWING LINES is part of the SMART HIGHWAY project which consists of projects Glowing Lines, Dynamic Paint, Interactive Light, Induction Priority Lane, and Road Printer.
